

Creating your fundraising page

Fundraising for the challenge is simple. Here's how it works:

Below is the link to our fundraising platform, **Charity Checkout**. Create an account if you don't have one yet. This should only take seconds.

Charity Checkout: <https://afrikids.charitycheckout.co.uk/fundraising/start#!/>

When asked **"What kind of fundraiser would you like to start?"**, select "personal challenge". Then hit continue.

For **"Challenge name"** type in "[YOUR NAME]'s 10k your way challenge for AfriKids". **"Challenge type"** will be "run/marathon". Your **"Challenge start date"** is up to you. The 10k your way challenge will end on 31st May, so make sure you give yourself enough time. Hit continue to move to the next step.

"Your target" should be set for £250 at least. Feel free to set it for higher if you feel comfortable.

Choose a photo of yourself for your page. On the next page we have provided you with a **header image**, which you are free to change if you wish.

"Your page title" should be the same as "Challenge name" (see above). Below is suggested text for the **"Why I'm fundraising for AfriKids"** section, though we encourage you to make this your own as fundraising pages are most successful when they are personalised.

"Throughout the month of May I'll be running the AfriKids 10k your way challenge. This will allow me to boost my health and wellness during this period of isolation while helping AfriKids support children living in poverty in northern Ghana.

In northern Ghana where 1 in every 15 children die before their 5th birthday, AfriKids has helped transform hundreds of thousands of lives, ensuring that children are healthy, safe and in school.

Please join me in supporting this cause by making a donation of whatever amount you're comfortable with. Any and all support is greatly appreciated and will make a massive impact for AfriKids' programs in Ghana.

Here's what your donation could do:

£5 could help protect girls from child marriage

£10 could buy a child a school uniform

£18 could provide a child with physical disabilities with specialist furniture to support their muscle development"

"Custom URL" is optional. Hit Finish to complete your page.

Once you've created your page, share it with your friends and family and encourage them to donate. Ready, set, go!
